

PRODUCT SPOTLIGHT: Hygienic Cold Water Basin

BAC's dual sloped hygienic cold water basin is specifically designed to keep the basin clean which reduces the operating cost by requiring less water treatment.

- ✓ Reduces the operating volume of water by 12%
- ✓ Eliminates stagnant zones by directing debris towards the center strainer
- ✓ Deters biological growth

Paired with BAC's optional honeycomb Combined Inlet Shields (CIS), the water treatment requirements are further reduced from algae growth.
